

Name : Murakonda Sravani

Course:ASE

Student ID : 16221927

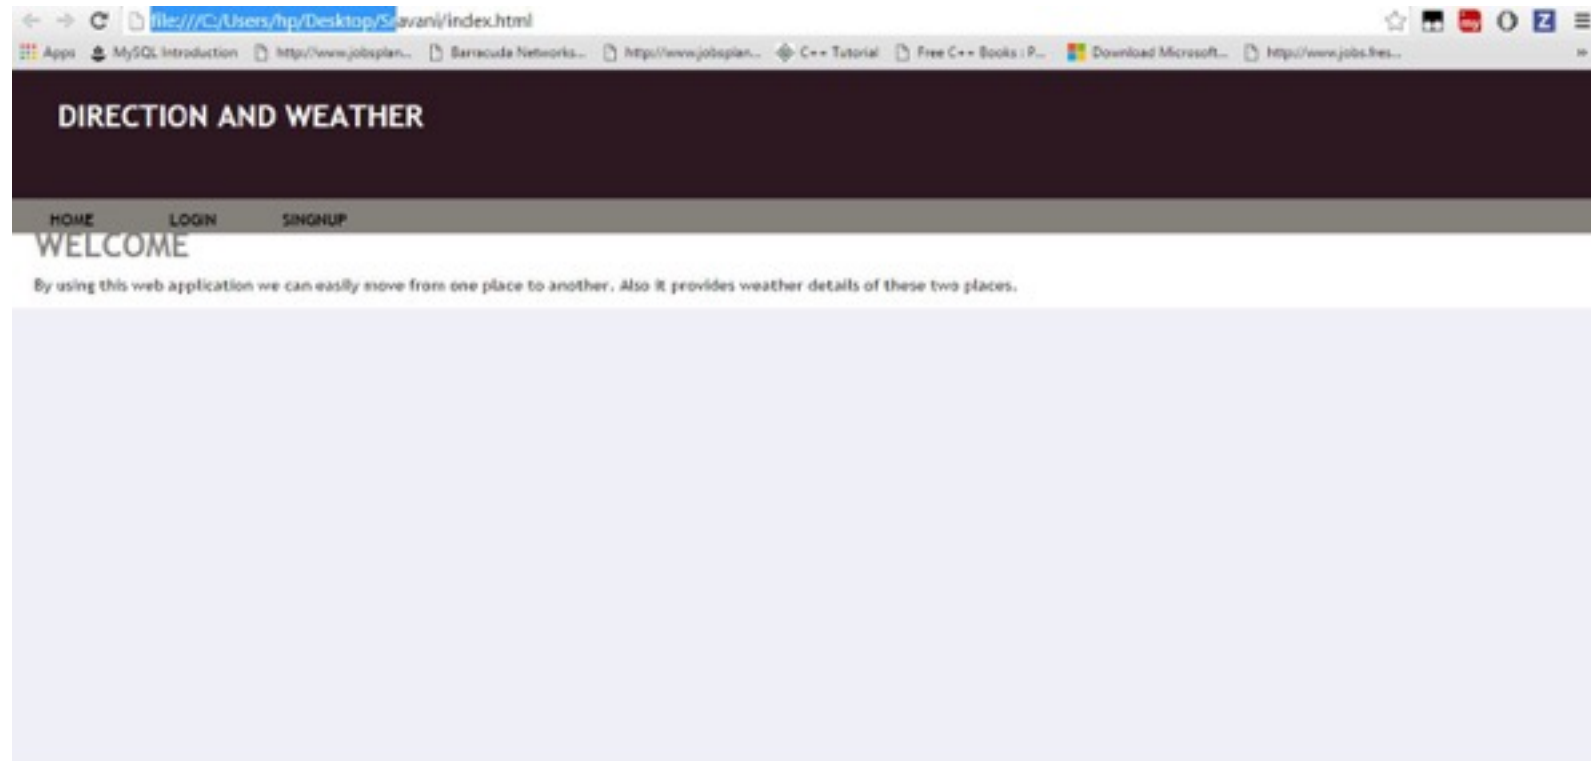

Lab No : 4

Class ID : 34

Date : 17th Feb 2016

Application Steps :

Step : 1 Website Home Page : The application Homepage gives the details about the features provided by the website like login, home, sign up with a welcome message. Now to enter into the website if the user is new then click on sign up for registering otherwise directly login into the website with the login credentials.

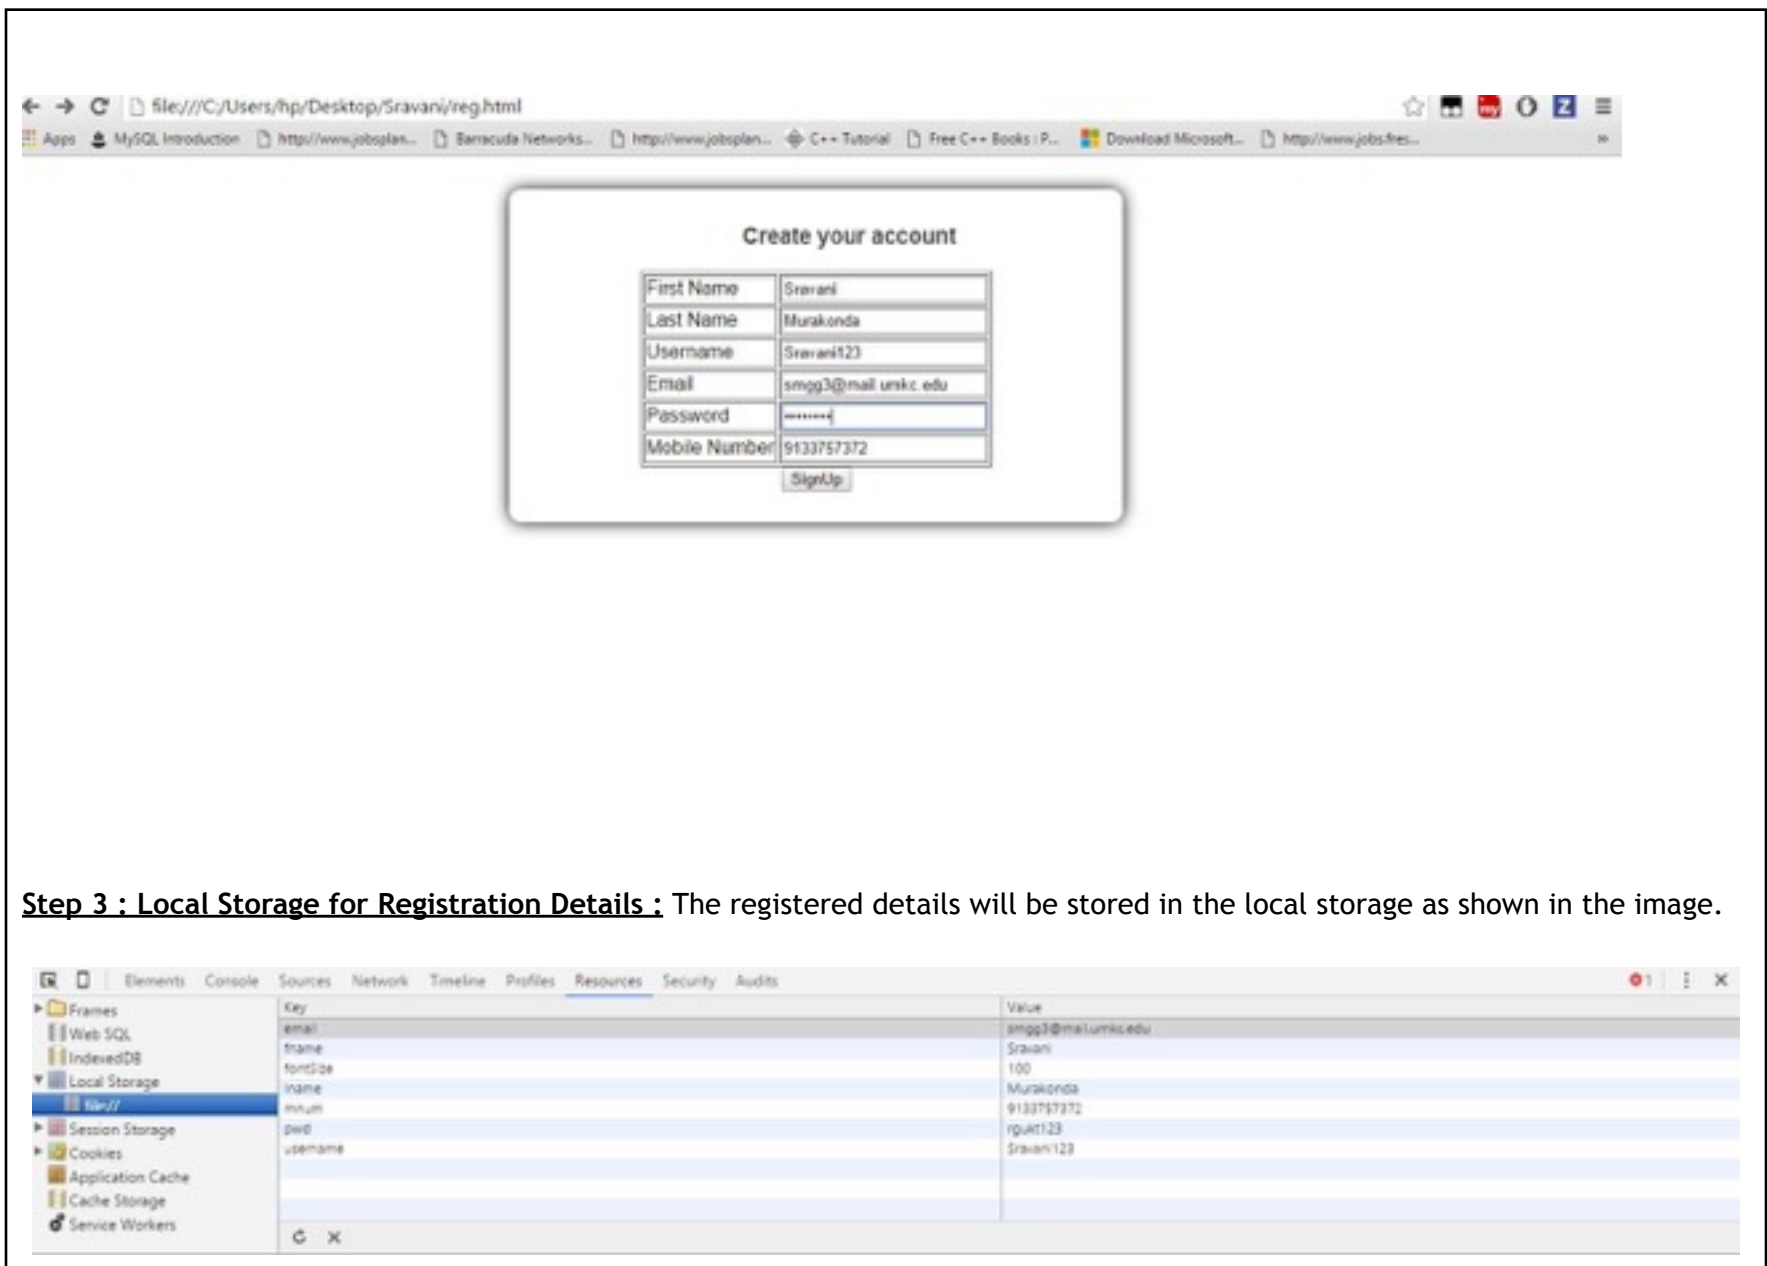

Step : 2 Register page : Register with the details like First name, Last name, Username, Password, Email address and Mobile Number.

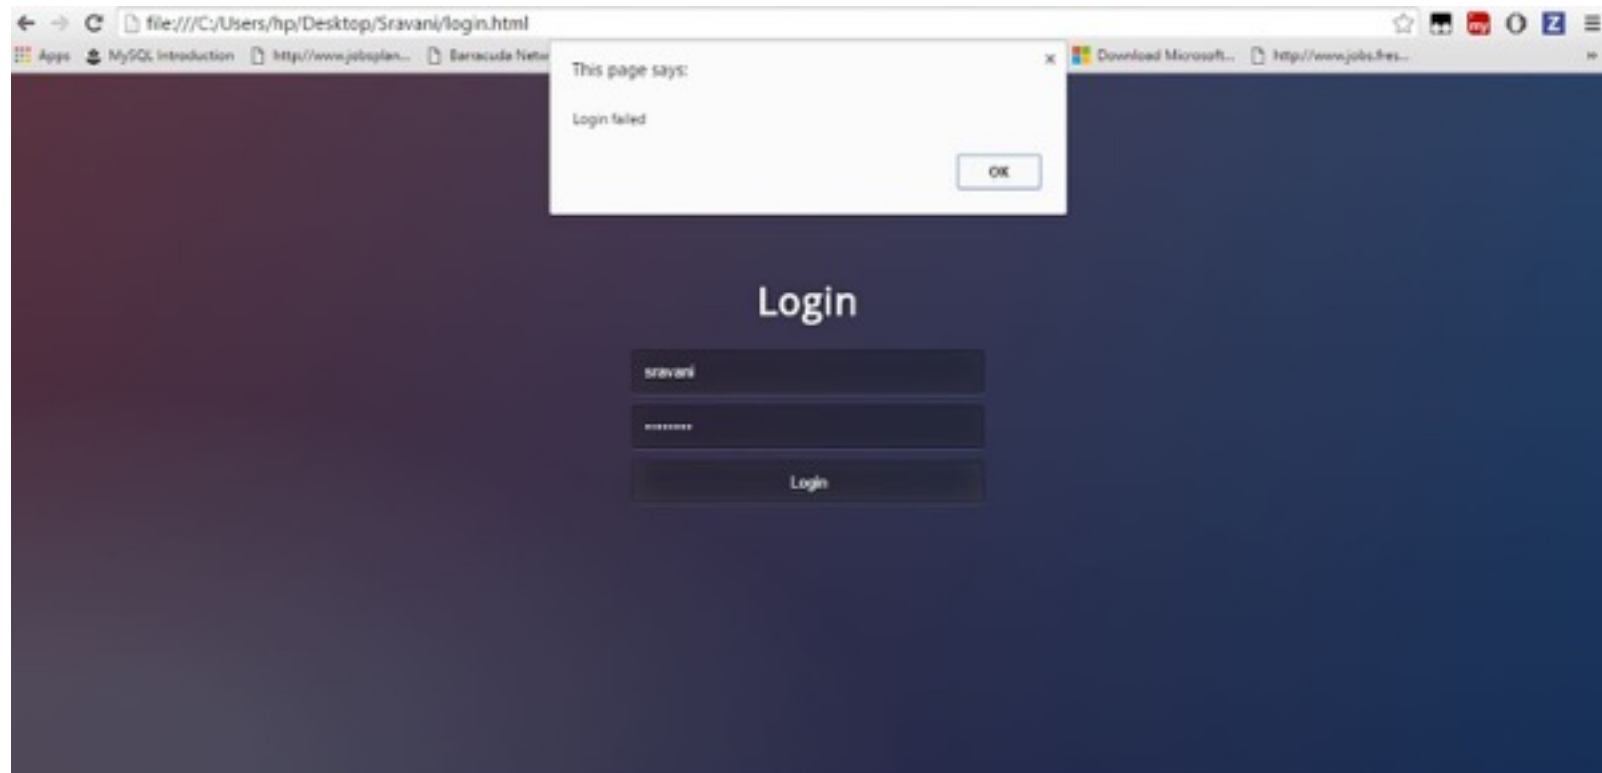

Create your account

First Name	<input type="text"/>
Last Name	<input type="text"/>
Username	<input type="text"/>
Email	<input type="text"/>
Password	<input type="password"/>
Mobile Number	<input type="text"/>

Step 3 : Local Storage for Registration Details : The registered details will be stored in the local storage as shown in the image.

Step 4 : Login page : Now login into the page with the login credentials.

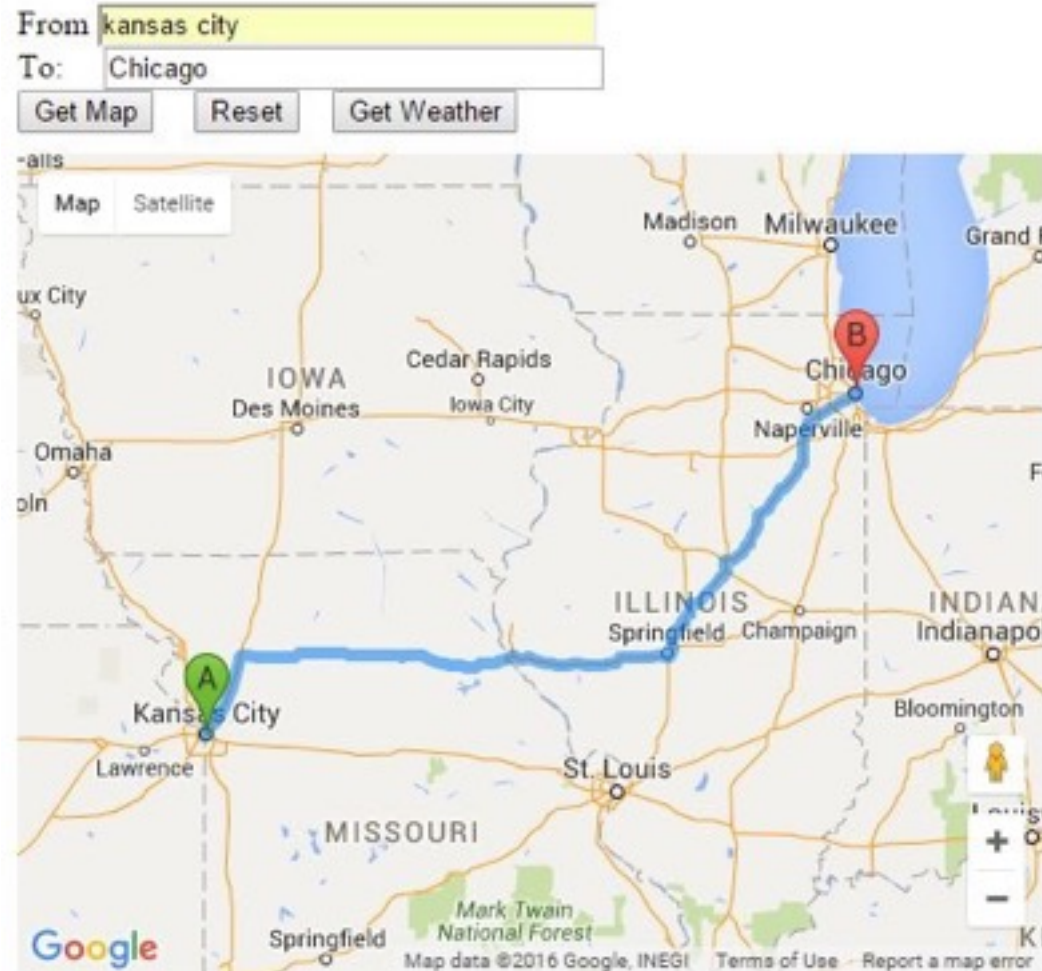

Step : 5 Application Page : In the application page we will get to input boxes for giving starting and ending points of the route.

The screenshot shows a web browser window with the address bar displaying a file path: `file:///C:/Users/hp/Desktop/Sravani/a.html`. The browser's tab bar contains several open tabs, including 'Apps', 'MySQL Introduction', and various web pages. The main content area of the browser displays a web page titled 'Map and Weather'. This page features two input fields: 'From' with the placeholder text 'An address' and 'To' with the placeholder text 'Another address'. Below these fields are three buttons: 'Get Map', 'Reset', and 'Get Weather'.

Step : 6 Output Page with Route Map : In this According to the details given by the user i.e starting point and Ending Point the search of get map will give the map with Route from Google Maps.

Map and Weather

Step : 7 Final Output Page with Route Map and Weather Details : In this we will get weather details also for the starting and ending locations with the route map.

Map and Weather

To:

Weather Report of Kansas City

Currently 57.6 F and Clear

Weather Report of Chicago

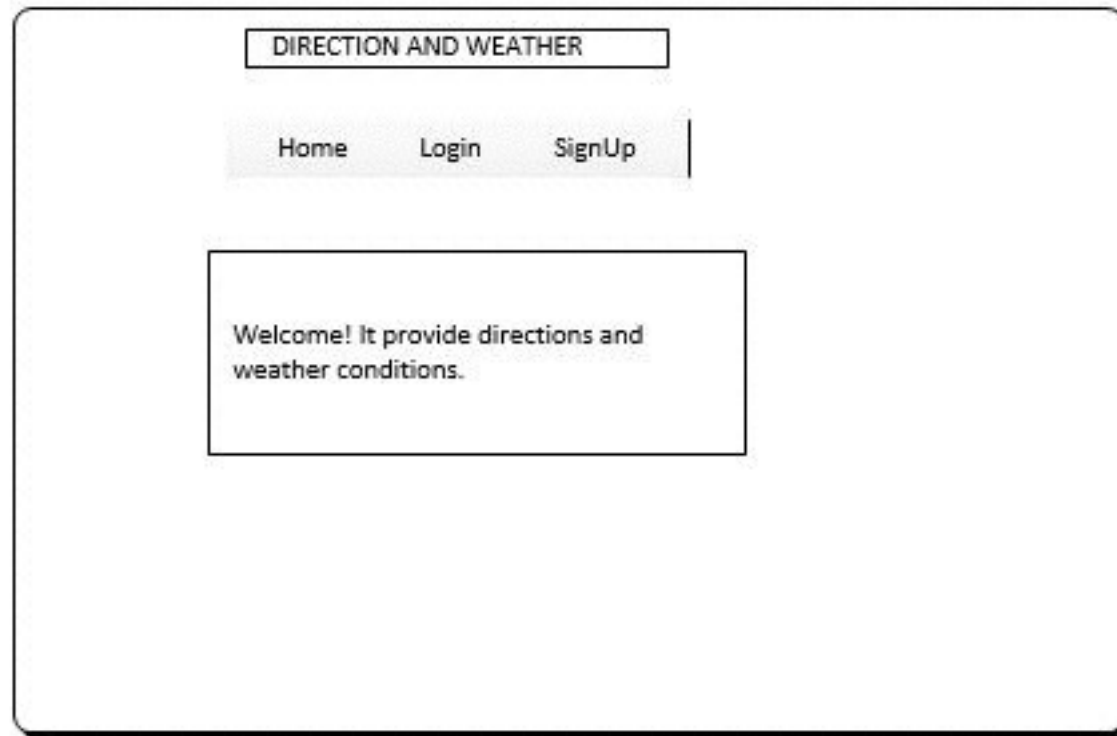

Currently 33.5 F and Clear

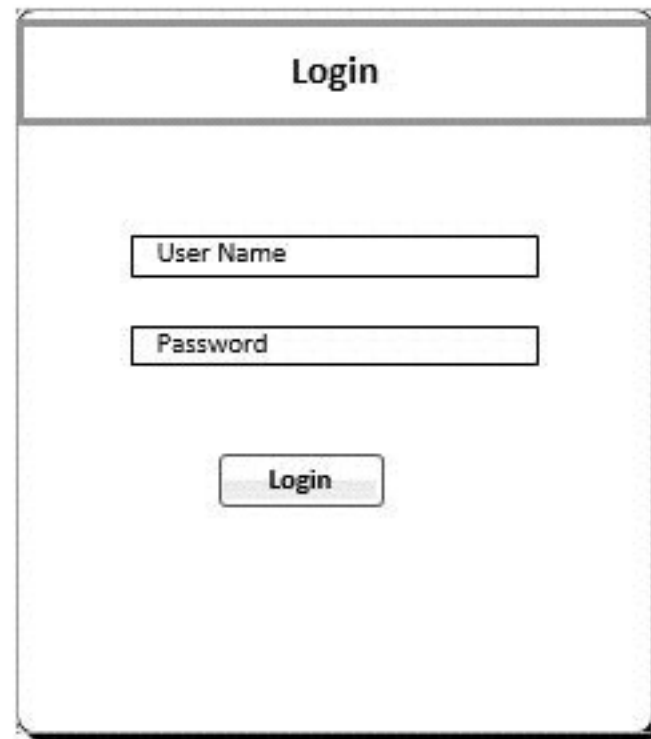

Wireframes for the Application : Wireframes will give the layout and design architecture of our web application

Wireframe for Home Page

Wireframe for Login Page

A wireframe for a login page. It features a central rectangular box with a light gray background. At the top of this box is a header bar with the word "Login" in bold black text. Below the header bar, there are two input fields: the first is labeled "User Name" and the second is labeled "Password". Both labels are in bold black text and are positioned to the left of their respective input boxes. Below the input fields is a "Login" button with a light gray background and a black border. The entire wireframe is centered on a white background.
